-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is FINAL. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Drawings

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the “retraction stop” and “retainer” must be clearly shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as “amended.” If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either “Replacement Sheet” or “New Sheet” pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

2. The drawings are objected to because compliance with 37 CFR 1.84 was not meet as indicated in form PTO-948. Correction is required.

Claim Objections

3. Claim 1 is objected to because of the following informalities: In line 5, use of the term "thereof" is not warranted; and the term "maybe" is not appropriate in this context. [the examiner suggests the following: "an open forward portion, the housing being dimensioned for containment within the recess of the wall" as an example]. In line 7, the phrase "a outer door" should be --an outer door--. Appropriate correction is required.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In line 2, the phrase "the recess" does not have a proper antecedent basis. In line 8, the phrase "such as" renders the claim indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention. See MPEP § 2173.05(d). In line 9, the phrase "the undecorated side" does not have a proper antecedent basis. In line 10, the phrase "said frame" does not have a proper antecedent basis. In line 26, the phrase "the inclined faces" does not have a proper antecedent basis. Claim 1 fails to recite sufficient structural elements and the interconnection of the elements to positively position and define the claimed combination so that an integral structural apparatus is defined which is able to function as claimed. Presently, it is not clear if there is any structural interconnection between the "housing" and the "outer door"/"slide assemblies" [not clear if the housing

is connected to the door in any manner or is just located within a recess in a wall – are the slide assemblies attached to the wall? or are the assemblies attached to the housing? if so, how are the assemblies connected?]. As claimed, the door and slide assemblies are attached to the wall, while the housing is just listed as a part of the invention.

Allowable Subject Matter

5. Pending a properly filed response to this Office Action, Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hommes, Delph, Lichtenberg, Porter, Fulterer and French publication 692,475 describe cabinets with sliding members.
